Eligibility

* indicates a required field

Eligibility check

Before proceeding with the application, please ensure that you meet all eligibility criteria in the [Guidelines](https://www.recfit.tas.gov.au/low_emissions_livestock/_nocache), available at: https://www.recfit.tas.gov.au/low_emissions_livestock/_nocache.

If you are unsure about your eligibility, please contact the Climate Change Office on 03 6166 4466 or climatechange@recfit.tas.gov.au.

Applicants may be asked to supply documentation to support their eligibility claims, as part of the application process, or as part of an audit process. Information supplied by applicants may be subject to authenticity checks using third party software.

All applications will be reviewed to ensure both the applicant and the project meet the eligibility requirements. All applications that meet the eligibility criteria will be assessed competitively against the assessment criteria. The Assessment Panel may consider applications that do not meet all project eligibility criteria but will achieve the intended outcome of the grant program as outlined in the guidelines.

Joint applications

Joint applications for a grant under this program are encouraged. If you wish to partner with one or more organisations to deliver a program, you must appoint a lead organisation who will be responsible for submitting the application and entering into the agreement with the Department of State Growth and managing the grant funding.

Eligible applicants

To be eligible for a grant under the program, the applicant must:

- 1.be an entity with an existing and ongoing presence located in Tasmania or show evidence of a partnership with an entity with an existing and ongoing presence located in Tasmania
- 2.be registered for tax purposes in Australia with an active Australian Business Number (ABN)
- 3.be registered for GST

We encourage responses and uploaded files to be as concise as possible, with references/links to additional resources if required.

Criterion 1 - Feasibility of the relevant feed supplement - weighting 30%

Proposals must demonstrate:

- that there is considerable evidence that the relevant technology reduces emissions from livestock
- an estimate of the potential reduction in emissions from the project and key assumptions underpinning this estimate
- that a large-scale trial/s of the relevant technology is feasible in Tasmanian conditions and in the context of livestock management practices in Tasmania.

Demonstrate that there is considerable evidence that the relevant technology reduces emissions from livestock *

Word count:

Must be no more than 500 words.

Please provide a brief high-level summary, with references to academic articles and other resources if required.

Criterion 2 - Capacity and capability - weighting 30%

Proposals must have a robust project plan. This should be no more than approximately 10 pages and should include the location and size of the project governance, key project milestones, risk assessment and risk mitigation strategies.

If not included in the project plan or elsewhere in your application, please also provide:

- an outline of how the abatement and impact on productivity from the trial will be measured and reported
- all necessary approvals, licences and permits, or outline how they will be secured
- evidence of project partners that are Tasmanian-based livestock producers and include representation from the supply chain
- evidence of a project team with the demonstrated capability to deliver the trial.
