

Supercharged Renewable Energy Dividend 2024 – residential households

Form Preview

Eligibility

* indicates a required field

The Supercharged Renewable Energy Dividend program provides a one-time payment of \$250 for residential households who get their supply of electricity through an embedded network in Tasmania rather than via an authorised retailer (like Aurora Energy or 1st Energy). This includes caravan parks and retirement villages, where residents are billed separately for their electricity use.

If you receive your electricity bill from Aurora Energy, 1st Energy, Momentum, CovaU or Energy Locals, you do not need to apply through this form - your payment will be automatically applied to your bill.

The program will open for applications at 2 pm on 19 June 2024 and remain open until 2 pm on 31 October 2024. No applications will be accepted after the closing date.

To receive the Supercharged RED payment you must: • access electricity via an embedded network; and • be currently residing on an embedded network as your principal place of residence.

Customers that do not receive an individually metered electricity supply (eg. a person renting a caravan sharing residential land and taking electricity from another connection), and as a result do not meet the definition of an embedded network for the Supercharged Renewable Energy Dividend program are not eligible to apply.

For more information on the program, please read the program guidelines and the Frequently Asked Questions (FAQs) carefully before starting your application at https://recfit.tas.gov.au/grants_programs/residential_households_embedded_networks_rebates/supercharged_renewable_energy_dividend

Only one application per residential household on an embedded network is allowed under this program.

Applications submitted by a third party will not be accepted without evidence of permission in the application.

Please visit https://recfit.tas.gov.au/grants_programs/residential_households_embedded_networks_rebates/supercharged_renewable_energy_dividend for any updates on the Supercharged Renewable Energy Dividend program and the program guidelines before applying.

The Supercharged RED application form contains further details about the requirements to be met to receive the payment. It will be the responsibility of the applicant to ensure that all requirements outlined in the form are met, and that all parts of the application form are fully completed

If you need assistance, please email sredrecfit@ReCFIT.tas.gov.au

Do you receive your electricity bill from Aurora, 1st Energy, Momentum, CovaU or Energy Locals? *

☐ Yes

☐ No

Please contact your electricity retailer

Form Preview

If you are not a customer of an embedded network and receive your electricity bill from a retailer such as Aurora Energy, 1st Energy, Momentum, CovaU or Energy Locals then you will need to speak with your electricity retailer about the Supercharged RED directly.

I confirm that neither I nor any other member of my household have applied for or received a payment under the Supercharged RED or applied as a business *

☐ Yes

☐ No

You are not eligible for the Supercharged RED

As you have indicated that you have already applied for/received a payment under the Supercharged RED or have applied as a business, you are not eligible to apply again under the Supercharged RED.
